## Billy Mill Roundabout

### Key Improvements

1. Change the junction from a roundabout to signalised crossroads, which will increase its capacity and reduce peak delays.
2. Provide two lanes eastbound along Beach Road, from Billy Mill Roundabout to the A192 Tynemouth Pool roundabout.
3. Allow two lanes to travel ahead eastbound on the A1058 Coast Road approach to Billy Mill Roundabout.
4. Introduce a no right turn restriction from Beach Road onto Lynn Road to enable the smooth movement of traffic and remove the risk of collisions.
5. Introduce a new staggered signalised crossing at the petrol station on Beach Road to make it easier for people to cross the road.
6. Install a Toucan crossing on the Lynn Road arm of the junction to improve the continuity of the Coast Road Cycle Route.
7. Create an improved shared footway/cycleway from Billy Mill Roundabout to the A192 Tynemouth Pool Roundabout.
8. Introduce Keep Clear markings near the bus stop on the eastbound A1058 Coast Road at Billy Mill Roundabout to make it easier for buses to enter/exit the stops.
9. Widen the Regent Terrace approach to Billy Mill Roundabout to remove the conflict between filter lane traffic and vehicles waiting to go straight ahead, and add a Puffin crossing.

## Norham Road Junction

### Key Improvements

1. Provide two northbound and two southbound lanes.
2. Install traffic signals at both sliproad junctions, to make it easier for vehicles, particularly buses, to access Norham Road. Link these signals to those by Tesco for improved co-ordination of traffic movements.
3. Increase waiting capacity for vehicles on Norham Road that are turning right onto the sliproads.
4. Introduce new signalised crossing facilities on A1058 Coast Road entry and exit sliproads.
5. Introduce a Toucan crossing across Norham Road North to enhance the Coast Road Cycle Route.
6. Widen the sliproads to provide sufficient space for two vehicles side-by-side.
